PETOL™ SURGRIP™ Valve Wheel Wrench

PETOL™ SURGRIP™ VALVE WHEEL WRENCHES significantly reduce the chance of injury due to wrench slippage when opening and closing valves.

These durable, ductile iron wrenches are **safer** and **easier** to use because the head design provides a **better grip** and allows the operator to rest the wrench on top of the wheel when opening stubborn valves. This, along with **longer handle** lengths for **more leverage**, make the PETOL SURGRIP the best valve wheel wrench on the market.
